🎨 SKILLS

- Team leadership
- Project Management
- Video Editing
- Ethical Hakcing
- Penetration Testing
- Python Programming
- Problem Solving
- After Effects
- Premiere Pro

🌐 LANGUAGES

Malayalam

English

Passionate and self-driven cybersecurity student aiming to become a ethical hacker. Seeking opportunities to leverage my skills in Python, Video editing, automation, and cybersecurity to solve real-world problems and contribute to innovative digital solutions.

🎓 EDUCATION

MES COLLEGE OF ENGINEERING KUTTIPPURAM
Bachelor of Technology
2024 – 2028 | kuttippuram, India

📁 PROJECTS

Telegram Automation Bot
Created a custom Python-based Telegram bot for auto-replies, channel linking, and API-based content delivery. Integrated user access control and data logging features

API-Based Movie Search System
Developing a backend tool for a Telegram channel that fetches media data from APIs and delivers download options directly to users via bot DMs.

🛡 CERTIFICATES

- Google Foundations Of Cyber Security
- IBM Introduction To Cloud Computing
- Uni.Michigan Programming For Everybody

🔑 INTERESTS

Personal Interests & Passions
I'm passionate about both creative and technical challenges. I enjoy video editing using After Effects and Premiere Pro, focusing on storytelling and transitions. As a bug bounty hunter, I explore real-world web vulnerabilities like XSS and API bugs. I also love working on automation projects and ethical hacking labs, blending creativity with cybersecurity.
